

Geothermal: Emission-free Electricity in Texas

Thursday, October 28, 2021; 7pm

Online: <https://us02web.zoom.us/j/87597407645>

Going Green Sustainability Lecture Series

FREE EVENT sponsored by The Woodlands GREEN

The community is invited to learn about the truly **GREEN** energy from the **heat** beneath our feet!

- Learn what Geothermal Energy is, the many uses of this inexhaustible, renewable resource, and where it is successfully being harnessed today
- How Geothermal can accelerate the energy transition
- How we can get to net-zero emissions by 2050
- Geothermal can provide reliable, emission-free, weather-proof electricity, 24/7/365

EarthBridge Energy will explain the science behind Geothermal and show how various technologies can enable widespread adoption of this renewable resource critical for a lower carbon world. **Please bring your questions!**

Derek Adams, PhD
